### DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on 28 April 2003 has been entered.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 14-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Ewing (USPT 4,791,539) cited by Applicant.

Re claims 14-15: Ewing teaches a lighting fixture having a socket for receiving a light bulb (32 in Fig.2), a means for receiving electrical power; a cylindrical capacitor (62 in Fig. 5); and at least one wire tie (See the flat wire above 62 in Fig. 5) that at least partially secures the capacitor to the lighting fixture via a plurality of holes (The flat wire is secure by two screws and two screw holes in Fig. 5) arranged in a mounting surface of the lighting fixture.

*Allowable Subject Matter*

4. Claims 1-3, 6-8, and 11-13 are allowed.
5. Claims 16-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. The following is an examiner's statement of reasons for allowance: The prior art of record fail to teach a retaining clip cooperating with a slot to partially secure at least a portion of the capacitor rim, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

*Conclusion*

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:
